—Dr. Rorick, Superintendent of the Athens Asylum was in our city Tuesday, called as a witness in the Gibson case, now on trial in court. Dr. Rorick is a stranger, personally to most of our Logan people, but as a Superintendent of an Asylum in which Logan has close relationship in many ways generally and especially because Frank Rochester is its Steward, he is known and reputed as one of the best men for the place in its history. We know something of this great public Charity. With Van Vorhes we helped select the grounds, carried chains and drove stakes for Heinlein when he mapped the grounds "inspected" Dr. Gundry, its first Superintendent, and have had acquaintance from that time with Dr. Rorick and Holden who shaped things to the good of the public and in the purpose of the Charity. Dr. Rorick is known to us in a public way, as a worthy successor of Gundry, Rutter, and Holden, men who made an impress upon the policy of a state Charity, and whose foundations are the basis upon which successors like Dr. Rorick, build and make better. Without authority, but in an assurance from a plan that obtains, we suggest that our good people, not in a spirit of fault finding, but with a view to see how our public institutions are managed, make a visit to the Athens Institution. It is ours, as much as is

our Court House or our School House. We who pay taxes as well as we who do not, but are citizens, have an interest, have a citizens ownership in this as we have in all our public institutions and the more we see of the management of an institution that is well managed, the prouder we feel of Ohio, and the better disposed we are to pay the tax that maintains our Institutions. We feel assured in saying that any of our readers, who may call at the Athens Asylum, either on business or in the honest purpose to see how our public affairs are managed, will get pleasant attention from Superintendent Rorick and Steward Rochester.
